

• MARKETING STRATEGY & GROWTH PROPOSAL

Filling both 9am classes, one warm message at a time.

A hyper local, measurable plan to fill Heather Brown's Monday and Thursday 9am aqua fitness classes in Claremont, then keep them full.

[See the plan](#)

[View the ad concepts](#)

PREPARED FOR

Heather Brown

THE BUSINESS

AquaPulse Fitness

PREPARED BY

DMG Digital

DATE

July 2026

Two classes. One clear job.

The objective is simple and single minded: fill the Monday and Thursday 9am aqua fitness classes at the Claremont pool, and build a small waitlist so they stay full.

Everything in this deck serves that one goal.

2

weekly classes to fill, Mon and Thu at 9am

8km

tight targeting radius around the Claremont pool

<R250

target cost per booked seat, our north star metric

3-4 wks

to fill both classes on the recommended budget

THE HEADLINE PLAN

Target narrow

Only people with free weekday mornings within a short drive of Claremont. We stop chasing commuters.

Convert on WhatsApp

Every ad, post and referral funnels into one warm WhatsApp chat where Heather is fastest and friendliest.

Prove, then scale

Start lean to prove the cost per booked seat, then step spend up once the number looks right.

Keep them coming

Light reminders and a personal after class nudge turn first timers into regulars and fill the waitlist.

Four people who have their mornings free.

A 9am weekday slot is a gift and a filter at the same time. It rules out office workers, so we aim only at people whose mornings are their own. Four segments, in priority order.

SEGMENT A

PRIMARY

Active over 50s & retirees

The Southern Suburbs have a large, health aware older community with free mornings. Doctors routinely tell them to try water based movement, and they fear high impact exercise. They value friendliness, safety and routine, and they pay monthly without fuss when they feel looked after.

WHERE WE REACH THEM

Facebook feed (heavy users), local community groups, retirement estates, GP and physio waiting rooms, Google search for low impact exercise.

SEGMENT B

PRIMARY

Rehab & low impact seekers

People recovering from knee or hip surgery, back trouble, arthritis or a long injury layoff. They arrive with a need, not a want, so they convert brilliantly. Often sent by physios, biokineticists, GPs and orthopaedic surgeons, which makes referral the key channel here.

WHERE WE REACH THEM

Practitioner referral cards, biokineticist and physio practices within 5km, hydrotherapy searches, targeted rehab interest ads.

SEGMENT C

SECONDARY

New & expecting mums

SEGMENT D

SECONDARY

Work from home locals

People who run their day from home nearby and want a real reason to leave the desk mid morning. A smaller group, but very cheap to reach because they are hyper local, and the 9am timing suits a flexible day perfectly.

Postnatal mums easing back into movement, and expecting mums (who route to Heather's 10am Prenatal class). School drop off lands right before 9am, so the timing is natural. They talk

WHERE WE REACH THEM

Tight radius Meta ads, neighbourhood community groups, Google Business Profile, organic Instagram.

We deliberately ignore office commuters, the hardcore fitness crowd, students and tourists. Chasing them wastes budget. Focus is the strategy.

The water does the hard part.

We are not selling a gym. We are selling a warm, friendly 45 minutes that makes people feel good, in water, close to home. That feeling is the product. The 9am time is the convenience hook.

THE BRAND PROMISE

**A workout that feels like
freedom, not
punishment.**

Warm, human, upbeat and plain spoken, in Heather's own voice. Low impact, high energy, 100% fun. Never clinical, never boastful, never salesy.

01 Low impact

Water carries up to ninety percent of your weight, so it is gentle on knees, hips and backs while you still get strong.

02 No swimming needed

Shallow, warm water, feet on the floor the whole time. Work at your own pace, whatever your fitness level.

03 Warm & friendly

Small classes, a real qualified instructor, and a community you actually look forward to seeing.

TAGLINE OPTIONS FOR HEATHER TO CHOOSE

OPTION A, THE FEELING

Strong, not sore.

OPTION B, HER OWN LINE

**Low impact, high
energy, 100% fun.**

OPTION C, THE HOOK

**Your morning. Your
movement.**

Six channels, all pointing at one WhatsApp.

Ranked by expected return for this specific 9am, hyper local offer. Paid does the reach, free does the trust, and WhatsApp does the conversion.

Channel 1, the workhorse **Meta ads (FB + Insta)**

ROLE

Paid reach. Click to WhatsApp ads drop enquiries straight into Heather's phone. A tight 8km circle around the pool, layered by age and interest.

ROUGH REACH

Tens of thousands of local impressions per month on a small budget.

WHAT GOOD LOOKS LIKE

Cost per enquiry under R80, and a steady flow of warm WhatsApp chats.

Channel 2, free trust **Community groups**

ROLE

Free, high trust. One genuine, friendly post from Heather in each Southern Suburbs group, plus helpful replies, beats paid ads for trust.

ROUGH REACH

Thousands of hyper local, highly relevant members per group.

WHAT GOOD LOOKS LIKE

Warm comments and DMs, no spammy tone, posted as a real person every week.

Channel 3, highest quality **Practitioner referral**

ROLE

Physios, biokineticists, GPs and orthopaedic practices within 5km. A one page referral card plus a warm intro from Heather.

ROUGH REACH

Low volume, but the highest intent leads of all.

WHAT GOOD LOOKS LIKE

Two or three practices sending patients, at almost zero cost. A standing weekly habit.

Channel 4, high intent **Google Business Profile**

ROLE

Free and essential. Captures people actively searching aqua aerobics near me and water fitness Claremont.

ROUGH REACH

Every high intent local searcher, plus map visibility.

WHAT GOOD LOOKS LIKE

A complete profile with photos, 9am times, the WhatsApp link and real reviews.

Channel 5, the engine

WhatsApp conversion

ROLE

Where every channel funnels. Enquiries become bookings, and bookings become regulars through friendly reminders.

ROUGH REACH

100% of enquiries pass through here.

WHAT GOOD LOOKS LIKE

An instant auto reply, then a personal reply within the hour. Speed of reply is the highest leverage thing in the funnel.

Channel 6, keeps it alive

Organic social

ROLE

Two to three posts a week: calm water, a real class moment, a member win, a low impact tip.

ROUGH REACH

Followers plus anyone an ad sends to check the page.

WHAT GOOD LOOKS LIKE

A page that looks alive and warm when a new person lands on it. Feeds the ads with content.

Three ads, ready to run.

One concept per audience, shown here exactly as they would sit in the Facebook and Instagram feed. Calm water, real warmth, the 9am time cue, and a single tap to WhatsApp.

Chat to Heather

NOTE

These mockups use stock aqua fitness photography as a stand in. The final ads use Heather's own class photos and one short video, which outperform any still. Nothing here invents results or testimonials.

From stranger to regular.

Every channel leads to one warm chat. An instant auto reply means no lead ever waits, and a light reminder system means no seat is ever lost to a no show.

1

Discover

An ad, a community post, a Google search or a practitioner referral sends someone to the landing page.

META · GOOGLE · GROUPS · REFERRAL

2

Landing page

One job: tap to book. Every button opens WhatsApp with the message already started.

THE CONVERSION ASSET

3

WhatsApp enquiry + instant auto reply

The enquiry lands in Heather's phone. An automatic greeting fires at once with the quick answers, so nobody feels ignored, even mid class. Email auto answers back this up for anyone who emails.

AUTOMATED, BUYS TIME

4

Personal reply & booking

Heather replies within the hour, answers questions, and confirms a specific Monday or Thursday date that has space.

HUMAN WARMTH

5

Payment to Heather

She sends her own SnapScan code or Yoco link. The money lands straight in her account. We never touch it.

HER GATEWAY, HER MONEY

6

Reminders

A friendly nudge the day before and the morning of the class. This is the anti no show system.

AUTOMATED + PERSONAL

7

Retention

A personal message a few hours after the first class turns a visitor into a member and starts the waitlist.

THE PRODUCT'S JOB

From setup to full classes in a month.

A clear rhythm: prove the message cheaply, tighten what works, create real momentum, then lock in retention. Free channels run every single week alongside the ads.

Week 0

Setup, before spend

- **Confirm** prices and class capacity
- **Collect** 3 testimonials, photos, 1 short video
- **Connect** Heather's own payment link
- **Publish** landing page, test every button
- **Build** the Meta campaign, leave it paused
- **Load** WhatsApp auto replies

Week 1

Prove the message

- **Mon** launch ads, post in 2 local groups, first organic post
- **Tue** reply to every enquiry within the hour, referral cards to 2 practices
- **Wed** check cost per enquiry, post 2
- **Thu** bring a friend nudge in class, one more group post
- **Fri** 5 minute KPI check, kill any dud creative

Week 2

Tighten & lift

- **Mon** if the numbers are good, step up spend, refresh best creatives
- **Tue** two more practitioner referrals
- **Wed** test a short class video ad, mid week glance
- **Thu** collect a fresh photo or testimonial
- **Fri** KPI check, update the fill tracker

Week 3+4

Momentum & retention

- **W3** push the true "filling up, a few spots left" message
- **W3** feature a real member story, ask for Google reviews
- **W4** focus shifts to keeping new members, personal rebooking nudges
- **W4** full month review, set the steady state budget
- **W4** start a small waitlist for the fuller day

Three tiers. Real South African numbers.

All figures are working estimates for local Meta costs, trued up against real results after week one. Ad spend always runs on Heather's own Meta account and card.

Lean

R1,500 /month

Test the message cheaply

- ✓ About R50 per day on Meta
- ✓ One Click to WhatsApp campaign
- ✓ One tight audience
- ✓ All free channels running
- ✓ Fills both classes in 4 to 6 weeks

RECOMMENDED START

Standard

R3,000 /month

The balanced, confident launch

- ✓ About R100 per day on Meta
- ✓ Two audiences tested (50s + mums)
- ✓ Small R500 Google search budget
- ✓ All free channels running
- ✓ Fills both classes in 3 to 4 weeks

Growth

R5,000 /month

Fill fast, build a waitlist

- ✓ R150 to R160 per day on Meta
- ✓ Three audiences incl. rehab
- ✓ Google search + retargeting
- ✓ All free channels running
- ✓ Fills both classes in 2 to 3 weeks

STANDARD TIER SPEND BREAKDOWN (PER MONTH)

Channel	Monthly spend	Est. cost per enquiry	Est. enquiries	Est. booked seats
Meta ads, over 50s	R1,500	R60	25	10
Meta ads, mums	R1,000	R55	18	7
Google search	R500	R70	7	3
Community groups	R0	Free	8	4
Practitioner referral	R0	Free	5	4
Total	R3,000	~R46 blended	63	28

Rule of thumb: if the blended cost per booked seat stays under roughly one month of that member's fees, the ads pay for themselves in the first month. That is the number that decides whether to scale. Prices below are **PLACEHOLDER, HEATHER CONFIRMS** R120 first class, R400 once a week, R700 twice a week.

The funnel math, conservatively.

A worked example on the Standard tier, using deliberately cautious assumptions. It shows how a month of activity comfortably fills both 9am classes, with seats to spare for the waitlist.

Both classes fill

28 booked first seats across a month is more than enough to fill two classes of 8 to 12, even allowing for no shows.

A waitlist forms

12 retained members plus a steady enquiry flow means the fuller day starts a waitlist by week four.

Cost per booked seat

Roughly R2,500 ad spend over 28 booked seats is about R89 per seat, well under our R250 target.

It pays for itself

12 retained members at a monthly package quickly cover the ad spend, so month two onward runs in profit.

Figures are conservative planning estimates, not guarantees. They are trued up against real numbers from week one, which is exactly why we start lean and scale only what works.

The landing page is already live.

Every ad and post sends here. It has one job: turn a curious local into a booked WhatsApp chat.

Mobile first, in Heather's real brand, it carries the promise, what a class is like, who it is for, simple pricing, the location and map, an FAQ, and a sticky "book on WhatsApp" bar that is always in reach. It is fast, clean, and built to convert on a phone.

- ✓ **One clear action** book a Monday or Thursday 9am seat
- ✓ **Every button opens WhatsApp** with the message pre started
- ✓ **Testimonial slots ready** for Heather's three real quotes
- ✓ **Payment note** money goes straight to Heather

[Open the live landing page](#)

It feels like a warm chat, because it is.

The automation only makes sure no one waits and no one is forgotten. Every tool sits in Heather's own hands, and it is all free or close to it.

What runs automatically

- ✓ **Instant WhatsApp greeting** fires the moment someone messages, even if Heather is teaching, so no lead feels ignored
- ✓ **Away message** after hours, promising a reply first thing
- ✓ **One tap saved replies** for the questions everyone asks: can I swim, what to bring, price, where, first timer nerves
- ✓ **Email auto answers** a warm four message sequence for anyone who emails instead

- ✓ **Reminders** the day before and morning of, the anti no show system
- ✓ **After class nudge** turns a first timer into a member

What Heather controls

Everything. The WhatsApp Business app (free) runs the greeting, away message, quick replies and labels. Her own payment link handles money. A simple sheet or phone note tracks who is booked. The whole stack is hers, it is free to start, and it keeps the personal, human feel that actually sells these classes.

Every rand goes straight to Heather.

Class payments flow directly into a gateway Heather owns and controls (SnapScan, Zapper, Yoco or PayFast). Nothing is ever routed through us or DMG, and we never hold a customer's card details. This is a hard rule, stated plainly for peace of mind.

Six things, then we go live.

The strategy, landing page, funnel and ad concepts are built and waiting. Here is the short list that gets the engine switched on.

1 Confirm the prices

Set the real numbers for first class, once a week and twice a week. The placeholders (R120 / R400 / R700) are only suggestions.

2 Connect your own payment gateway

Set up SnapScan or Zapper plus a Yoco link, in your name, money to your bank. Under an hour each.

3 Supply 3 real testimonials

Voice notes are perfect, we transcribe them. These replace the marked placeholders. Nothing is invented.

4 Supply real class photos + 1 short video

Calm water, real members, warm faces. A 15 to 30 second clip outperforms any still in the ads.

5 Pick a budget tier

Lean to test, Standard to launch confidently, or Growth to fill fast. Ads run on your own Meta account.

6 Complete the Google Business Profile

Photos, the 9am times and the WhatsApp link, so local searchers find you and can book in one tap.

Let us fill those two classes.

The plan is ready, the assets are built, and the numbers are conservative on purpose. Confirm the six items, choose a budget tier, and we launch on the next Monday.
